Come To Me

Bobby Caldwell

Come to me
Let me hold you in my arms
Darling, tonight
Come to meCome to me
There's no need to stay
Alone this way
Baby, come to meLet me love you, honey
Keep you warm
Holding you tightCome to me, come to me
All your cares will be history
Come to meCome to me
I would never mistreat you
I would always
Always be aroundIn this world you'll need
You'll need someone
I will never let you down, oh noCome to me
Let me love you, honey
In my arms
Darling, tonight, oh yeahCome to me, come to me
All your cares will be history
When you come to me
