

For the Better

The Ready Set

I heard it on a Saturday night
You hopped on that last flight
(Oh-woah)
I can't say that I was suprised
But imma let you finish girl I'm sure you tried I know you're down in the dumps
But atleast your rich, and you're songs don't suck
So take that 13 for luck
And find, there's a 100 others waiting in line Whatever, ever, ever
It's for the better
Hey, hey whatever, ever, ever
It's for the better I bet you see the tabloids around
Thrown your face all over the town
They say you'll probably write him a song 5 times platinum I doubt it there working
I know you're down in the dump
But atleast you're rich, and you're songs don't suck So take that 13 luck and find, there's a 100 waiting in
line Whatever, ever, ever
It's for the better
Hey, hey whatever, ever, ever
It's for the better
