

John James

Toots & The Maytals

Oh, John James went down to London town

He want to be a member if him can

But I know what I know-

He never wore them tight shirt before He was sitting in a mansion smoking a big cigar

He was sitting in a mansion smoking a big cigar

But I know what I know, he never wore them tight shirt before All I want sir just put me among some girls

He said, all I want sir just, put me among some girls

But I know what I know, he never wore them tight shirt before Johnny is the coolest one

Johnny is the coolest

But he is bad, bad, bad, bad, bad, bad
