

Whenever You're Near Me

Ace Of Base

Whenever you're near me
I give you everything I have
Someone to believe in
When things are good and when they're bad
You know how to please me
Ooh, like nobody can
Someone to believe in
Be my lover, be my friend
When every race is run and the day is closing in
I feel the need to hold you, let the night begin
Come softly to me, show me why
Whenever you're near me
I give you everything I have
Someone to believe in
When things are good and when they're bad
You know how to please me
Ooh, like nobody can
Someone to believe in
Be my lover, be my friend
I cannot wait to feel the beating of your heart
The days are long and they're just keeping us apart
Come softly to me, show me why
Whenever you're near me
I give you everything I have
Someone to believe in
When things are good and when they're bad
You know how to please me
Ooh, like nobody can
Someone to believe in
Be my lover, be my friend
Whenever you're near me
Love is the reason, we can feel this way inside
Oh oh, turning the world around and making us wild
Love is the music beating in our hearts tonight
Oh oh, lighting the way to take us deeper inside
Whenever you're, whenever you're near me
I give you everything I have
Someone to believe in
When things are good and when they're bad

You know how to please me
Ooh, like nobody can
Someone to believe in
Be my lover, be my friend
Whenever you're near me
Someone to believe in
When things are good and when they're bad
You know how to please me
Someone to believe in
Be my lover, be my friend
Whenever you're near me
