

Bedroom Eyes

[Yngwie Malmsteen](#)

Come on baby, what's on your mind?
You're stumbling in the darkness like you're running blind
Hey can't you see we've been fooling around
This same old graveyard on the same playground Be my late night movie star
By my nature, I can tell who you are?
Through all lies I see your bedroom eyes
There's no innocence in your bedroom eyes
Baby baby got no self-defense, for your bedroom eyes Over and over then we do it again
I haven't seen a stop sign since I don't know when
Up and down this lonely street guess I'll see you around
Is there any way to stop this merry go round You're my late night movie star, yes you are
By my nature I can tell who you are?
Through all lies I see your bedroom eyes
There's no innocence in your bedroom eyes
Baby baby got no self-defense, for your bedroom eyes Oh baby, what's on your mind?
Get to see you around, oh
