The Life

A Dream Too Late

Am I alive? Is it breath that
Keeps me livin' in my lungs
So I can be strong?Do I believe in you? Do I believe that
I want to change from the inside out?
I want to change from the inside outI'll give you the life, give you the life I live
I'll give you the life, give you the life I live
I'll give you the life, give you the life I liveI don't wanna live without you
I know I can't escape the sun
So I'll sing a new songDo I believe in you? Do I believe that
I want to change from the inside out?
Oh, I want to change from the inside outI'll give you the life, give you the life I live
I'll give you the life, give you the life I live
I'll give you the life, give you the life I liveI won't stop, can't ever stop the feeling
I won't stop, I'm not looking for a reason but youI'll give you the life, give you the life I live
So let me believe, let me believe in you
I'll give you the life, give you the life I live
So let me believe, let me believe in you
I'll give you the life, give you the life I liveI want to change from the inside out
