

Control Us

Audio Push

No they can't control us, show out when we show up
Got OG let's roll up, got that drink let's go up
They gon' judge me so what? Fuck'em they don't know us
Pipe it 'till you throw up, no they can't control us
No they can't control us, oh they can't control us
My wrist dacin' sure enough, you bitch dancin' sure enough
She chose me they like sure enough, hit the scene and go nuts
Show 'em how well we show up, no they can't control us Young boy got his dough up, now it's time to go nuts
She used to tell me hold up, now she wanna hoe up
'Round here we don't talk much, yeah you gotta show us
Where them sets get thrown up, yeah that's how we go up
Look up at your summer, yeah your boy did go there
Man I'm soldier, City [?] soldier
We don't wanna go up, we won't never grow up
I'm gon' ball and glow up, niggas all gon' know us
No they can't control us, show out when we show up
Got OG let's roll up, got that drink let's go up
They gon' judge me so what? Fuck'em they don't know us
Pipe it 'till you throw up, no they can't control us
No they can't control us, oh they can't control us
My wrist dacin' sure enough, you bitch dancin' sure enough
She chose me they like sure enough, hit the scene and go nuts
Show 'em how well we show up, no they can't control us Yeah there it is I caught the vibe
She just wanna see the Tribe
They waitin' for us inside
The realest niggas have arrived
Don't take no pictures I'm just chillin'
Can't fuck with that then fuck your feelings
In the club they say we couldn't smoke
(That's exactly why I always smoke)
Ya insecurity a joke
You only big behind the rope
Put one up in the air for five
Another in the air for life
Another in the air for everybody that ain't with us
Cause they locked inside
Tonight we come alive, we too focused can't control us
No they can't control us, show out when we show up
Got OG let's roll up, got that drink let's go up

They gon' judge me so what? Fuck'em they don't know us
Pipe it 'till you throw up, no they can't control us
No they can't control us, oh they can't control us
My wrist dacin' sure enough, you bitch dancin' sure enough
She chose me they like sure enough, hit the scene and go nuts
Show 'em how well we show up, no they can't control us
No they can't control us, show out when we show up
Got OG let's roll up, got that drink let's go up
They gon' judge me so what? Fuck'em they don't know us
Pipe it 'till you throw up, no they can't control us
No they can't control us, oh they can't control us
My wrist dacin' sure enough, you bitch dancin' sure enough
She chose me they like sure enough, hit the scene and go nuts
Show 'em how well we show up, no they can't control us
