

The Motown Song

Rod Stewart

Bring over some of your old Motown records
We'll put the speakers in the window and we'll go
On the roof and listen to the miracles
Echo to the alley down below Let's dance together just for the night
Let's don't worry about the future or nothin' else
'Cause just like the music's sayin' you gotta take chances
Go ahead just do it and trust yourself There's a soul in the city
Watching over us tonight
There's a soul in the city
Saying everything's gonna be all right So bring over some of your old Motown records
We'll put the speakers in the window and we'll go
On the roof and listen to the miracles
Echo to the alley down below They wish us luck but they think we're just dreaming
Let's prove them wrong baby
'Cause you know what luck is, luck is believing you're lucky
That's all and showing just a little bit of faith There's a soul in the city
Watching over us I swear
There's a soul in the city
There's a whole world waiting out there Listen, I got plans for us, playing like a skip on a record
Through my head all night long
But when we walk that darkened stairway and step out on the roof
I know what we're feeling can't be wrong Bring over some of your old Motown records
We'll put the speakers in the window and we'll go
On the roof and listen to the miracles
Echo to the alley down below Bring over some of your old Motown records
We'll put the speakers in the window and we'll go
On the roof and listen to the miracles
Echo to the alley down below
Let the temptations sing it one time Bring over some of you old Motown records
We'll put the speakers in the window and we'll go
On the roof and listen to the miracles
Echo to the alley down below Bring over some of you old Motown records
We'll put the speakers in the window and we'll go
On the roof and listen to the miracles
Echo to the alley down below
How sweet it is honey Bring over some of you old Motown records
We'll put the speakers in the window and we'll go
On the roof and listen to the miracles
Echo to the alley down below Bring over some of you old Motown records

We'll put the speakers in the window and we'll go
