

Hills And Valleys

Buju Banton

Advisory - the following lyrics contain explicit language:

Only Rasta can liberate the people
Over hills and valleys too
Don't let them fool you
Don't believe for a minute that they are with you
Jah free the people
Over hills and valleys too
Don't let them fool you
Don't believe for a minute, they don't like you Why try to make I unhappy?
Really I don't know
If it was up to them, my friend
We would never see the sun nor the snow
Through that mystical communication within We keep on comin' together
I love to see brothers and sisters
Lookin' out for one another
That's the way it should be
Not contrary, stop tearin' down each other Only Rasta free the people
Over hills and valleys too
Don't let them fool you
Don't believe one minute that they are with you
Jah free the people
Over hills and valleys too
Don't let them fool you
Don't believe for a minute that they are with you Hard drugs won't do
You're just behavin' like they want you to, yeah
I said, "Arrogance is much different from ignorance"
And I know you feel the same way too Many live this life without having a clue
No reason why they are so sad and blue
Places to go so much things to do
Not a moment to reflect on the cycle of life, yeah Oh free the people
Over hills and valleys too
Don't let them fool you
Don't believe for a minute that they are with you

Jah free the people
Over hills and valleys too
Don't let them fool you
Don't believe one minute, they don't like you
It hard, it hard, it hard, yeah
Make them know we waan go home a we yard
It hard, it hard, it hard, let them know
Let them know we waan go home a we yard
It hard, it hard, it hard, hey ya
Let them know we waan go home a we yard
It hard, it hard, it hard, oh God
We waan go home
Only Rasta free the people
Over hills and valleys too
Don't let them fool you
Don't believe for a minute, that they are with you
Jah free the people
Those over hills and valleys too
Don't let them fool you
Don't they believe one minute, they don't like you
Why try to make I unhappy?
Du, du, du, du, I don't know
If it was up to them my friend
We would never see the sun nor the snow
Through that mystical communication within
We keep on comin' together
And I love to see brothers and sisters
Lookin' out for one another
That is the way it should be
Not contrary, stop tearin' down each other
Look around, oh free the people
Over hills and valleys too
Don't let them fool you
Don't believe for a minute, they don't like you
Jah free the people
Over hills and valleys too
Don't let them fool you
Don't they believe one minute, they don't like you
