

Baby, Don't Let It Mess Your Mind

Yvonne Elliman

Once upon a lonely time
But not so lone ago
You use to be a superstar
You used to still the show
But now you get be satisfied
That singing on the street
I watch the world go passing by
And once was on your feet Baby, don't let it mess your mind, no
Sadness, anger felling not becomes you
Baby, don't let it mess your mind, no
Remember life will always love you In another circus all the time
We seem to waste
To make up plans and find them all
The plans of being race
We have a little money
And we made a little time
And soon we broke forgetful
Of what we left behind Baby, don't let it mess your mind, no
Sadness, anger felling not becomes you
Baby, don't let it mess your mind, no
Remember life will always love you
