

# Mistaken Identity

[Kim Carnes](#)

Did she tell you it's over?  
Did she throw you out in the night?  
Here you come to your other lover  
Thinkin' that a restless heart will get you high again But I've change the number on my telephone  
You won't find me when you come callin' And I'll say, "Must be a case of mistaken identity  
I'm not the girl you want me to be  
Must be a case of mistaken identity" Did you think I'd be waiting for you?  
Did you think I'd be holding my breath?  
To hear the songs of your footsteps  
Sayin', "Its all over with her" and now you need me, you need me But I've change the number on my telephone  
You won't find me when you come callin' And I'll say, "Must be a case of mistaken identity  
I'm not the girl you want me to be  
Must be a case of mistaken identity" So don't try and call me anymore with your lies  
Don't be a fool and make the mistake of  
Thinking I still love you anyone can tell I'm fine  
And I don't need you But I've change the number on my telephone  
You won't find me when you come callin' I'll just say, "Must be a case of mistaken identity  
I'm not the girl you want me to be  
Must be a case of mistaken identity" "Must be a case of mistaken identity  
I'm not the girl you want me to be  
Must be a case of mistaken identity"
