

Halo On Fire

Metallica

Obey, obey
Come won't you stay
Sincere, sincere
All ends in tears
Concede, concede
But both shall we bleed Oh, halo on fire
The midnight knows it well
Fast, is desire
Creates another hell
I fear to turn on the light
For the darkness won't go away
Fast, is desire
Turn out the light
Halo on fire Allure, allure
Sweetness obscure
Abide, abide
Secrets inside
Deprive, deprive
To feel so alive
Obey, obey
Just don't turn away Oh, halo on fire
The midnight knows it well
Fast, is desire
Creates another hell
I fear to turn on the light
For the darkness won't go away
Fast, is desire
Turn out the light
Halo on fire Prayers cannot get through
Return to sender
Unto which of you
Shall I surrender Twisting in disguise
Dark resurrection
Lighting up the skies
Wicked perfection Too dark too sleep
Can't slip away
Open or close
My eyes betray
Beyond the black

Come won't you stayHello darkness, say goodbye

Hello darkness, say goodbye

Hello darkness, say goodbye
