As We're Falling Down

Takida

Once in a while I cannot sleep for all time
It must I've being bad searching for scapegoats
but that blame it's mineI'm on the outside looking in
you spin me around as we falling down
Fall out it's in your mind
Into the rage I can hear that sound
Cry out we can't be found
Into the that rain as we falling downI think that's over you don't see me
You just walk on by
You told me it's over I cannot take it
It's live or dieI'm on the outside nothing in
Let's spinning around as we falling down
Fall out it's in your mind
Into the rage I can hear that sound
Cry out we can't be found
Into the that rain as we falling downIt's the way we fall out
It's in the heart and all of mine
It's in the way we falling downFall out it's in your mind
Into the rage I can hear that sound
Cry out we can't be found
Into the that rain as we falling down
As we falling down
