

Never Say Goodbye (feat. Bright Lights)

Hardwell & Dyro

You'll never fly, if you're too scared of the height, woah

You'll never live if you're just too scared to die, woah

Everybody wants heaven, I know

But darling freedom ain't free, it's a long road

You'll never find your place up there in the sky

If you never say goodbye.If you never goodbyeIf you never goodbyeYou'll never fly, if you're too scared of the
height, woah

You'll never live if you're just too scared to die, woah

Everybody wants heaven, I know

But darling freedom ain't free, it's a long road

You'll never find your place up there in the sky

If you never say goodbye.If you never goodbye
