

Dance Real Slow

JD Souther

I see you all alone the corner
Nursing your big girl drink
It's friday night your all alone
and it might be temporary
but it's always later than you think You smile and i can see that you've been crying
You think no one can understand
Your lonely as Christmas
When no one around
So may i offer you my hand I wanna dance real slow and mean it
With you i'm all around for
Till the hour's Gold
like dominoes
And we dance right out the door
Let world fall down around
Save all your tears for me
And I'll be here to hold you Tenderly I wanna dance real slow and keep it up
By the night becomes the day
And the morning says it's time to go
But I beg you please please stay Let world fall down around us
Save all your tears for me
And I'll be here
to hold you Tenderly What are the odds
With all the sorrow
Anyone would even care
All this time is borrowed
so let's just take what's there
And if we keep on dancing
this song may never end
Can't you hear the music back again
for just around then Let world fall down around
Save all your tears for me
Time will pass
what will be will be
I will always hold you Tenderly
