

Chance To Desire

Radiator

Following melodies
Sailing about the seas
Trying to find a land My ship gets to the shore
I walk into your door
Can't you understand All I want is love
All I want is love
I can't get enough
I can't get enough All I want is love
All I want is love
I can't get enough
I can't get enough So right is wrong to stand
Stay while I can feel your hand
I wished a dream would last Searching for lover nights
I find it through disguise
Sometimes I go too fast All I want is love
Ah... all I want is love
I can't get enough
A h... I can't get enough... All I want is love
Ah... all I want is love
I can't get enough
Ah... I can't get enough... REFRAIN:
Come on, come on, come on, come on
Give a chance to desire
Come on, come on, come on, come on
Give a chance to desire
Come on, come on, come on, come on
Give a chance to desire
Come on, come on, come on, come on
Give a chance to desire You are the one
I could reach for the sun
But you let me go higher I'll maybe believe when I
Find you won't leave
Give a chance to desire
