Gasoline

Troye Sivan

I smell heartbreak on my hands
I feel sick to my stomach as I begin to stand
I see your outline in my bed
In the same spot I watched him rest his headI've done you wrong, I regret it
I write this song, tryin' to forget it
I feel this emptiness in my chest
It feels surreal, but I'm feeling stressed
I need to do something
I fucked up, for nothing
Now I gotta just tell someone
Tell someone what I've donePlease bathe me now, wash me clean
Just set my heart on fire
Like gasoline
Bathe me now, wash me clean
Just set my heart on fire
Like gasoline
Oh no, like gasolineI wake up, the morning after
You call but I don't answer
And I can't look you in the eye
No matter how hard I try
You deserve a forever
Not a boy looking for better
But as long as you're still here
I'll try to keep you nearPlease bathe me now, wash me clean
Just set my heart on fire
Like gasoline
Bathe me now yeah, wash me clean
Just set my heart on fire
Like gasoline(Like gasoline)Please bathe me now, wash me clean
Just set my heart on fire
Like gasoline
Bathe me now yeah, wash me clean
Just set my heart on fire
Like gasolineBathe me now, wash me clean
Just set my heart on fire
Just like gasoline
