

# Should Have Known

## No Fun At All

You say it's time to make a stand  
And make a clean sweep of this world  
You say, you say it's time to understand  
If you don't shout you won't be heard  
Never got a minute just to take it easy  
Always so busy in your ideology  
Looking in your Filofax  
If there is some time you can spend with me  
Standing on the corner, waiting for you lonely  
Hoping you'll come along  
You were at a meeting or a demonstration  
Trying to save the earth, I should have known  
Should have known  
You say, you've got a few demands  
And those responsible will pay  
You say, you say it's time for reprimands  
And no one's gonna get away  
Never got a minute just to take it easy  
Always so busy in your ideology  
Looking in your Filofax  
If there is some time you can spend with me  
Standing on the corner, waiting for you lonely  
Hoping you'll come along  
You were at a meeting or a demonstration  
Trying to save the earth, I should have known  
Should have known  
Never got a minute just to have a good time  
Always so busy in your ideology  
Looking in your Filofax  
If there is some time you can spend with me  
Standing on the corner, waiting for you lonely  
Hoping you'll come along  
You were at a meeting or a demonstration  
Trying to save the earth, I should have known  
Should have known  
Standing on the corner, waiting for you lonely  
Hoping you'll come along  
You were at a meeting or a demonstration  
Trying to save the earth, I should have known  
Should have known
