# What If I

## Mandalay

Her words have left me
Discharged like a space
She stepped into reveal
The doubt I've feltWhat if I take a little more than you need
What if I say I believe in me
Inadequate for qualified I'm gonna be
All that I say I can beHer world has shown me
It's not just me who needs more
Just to be this and need no more
Must be so much relief must be allWhat if I take a little more than you need
What if I say I believe in me
Inadequate for qualified I'm gonna be
All that I say I can be but what if I need herHer words have left meWhat if I take a little more than you need
What if I say I believe in me
Inadequate for qualified I'm gonna be
All that I say I can be but what if I need her
