

# I Believe In You

## Y&T

You came to me, with your love to share,  
You showed me always that  
you'd be right there  
with the love we shared,  
and the times we had  
were like a dream baby they were never bad- oh no  
but how I felt has changed with time,  
and you know my life has ceased to shine,  
but I'm telling you...  
I believe in you, believe in you baby  
I believe in you, I believe in you  
All I want to say to you  
I believe in you, I believe in you

The way you are, I love you for,  
I only wish that I had only gave you more  
so much more  
And after all that we've been through  
so much baby  
I still see myself right here with you  
Oh yeah

I believe in you, believe in you baby  
I believe in you, I believe in you  
All I want to say to you  
I believe in you, I believe in you

Your phony friends, they all counsel you  
the things they say-oh baby  
you know aren't true, know aren't true  
cause even though I've been away  
for such a long time  
Just remember baby, you remember baby  
when you here me say I'm telling you  
yes

I believe in you, believe in you baby  
I believe in you, I believe in you  
All I want to say to you

I believe in you, I believe in you

I believe in you, believe in you baby

I believe in you, I believe in you

All I want to say to you

I believe in you, I believe in you
