Mended By You

Sugababes

I tried to make it work, I learned the hardest way
I lost him in the end and it was over
I turned my back on love, I switched off at the mains
I cried night and day cause it was overYou came up, I swear that it was just like
Something from the movie scene
When we met, we connected, I never expected
Youd be everything to meYou are everything I wanna say
Nothing that I wanna lose
Feel like I would never break
Ive been mended by youYoure the reason that I wanna stay
The places that I wanna go
Cause I know
Ive been mended by youHe never held me close, you never let me go
Just when I lost the fights you were my soldier
And now were sitting here in such a different place
August 23rd, do you remember?You came up I swear that it was just like
Something from the movie scene
When we met, we connected, I never expected
Youd be everything to meYou are everything I wanna say
Nothing that I wanna lose
Feel like I would never break
Ive been mended by youYoure the reason that I wanna stay
The places that I wanna go
Cause I know
Ive been mended by youIve been mended by you
Ive been mended by youYou are everything I wanna say
Nothing that I wanna lose
Feel like I would never break
Ive been mended by youYoure the reason that I wanna stay
The places that I wanna go
Cause baby, I know
Ive been mended by youIve been mended by you
Ive been mended by you
