

# Testify

## Future

Told the bad guy he's supposed to get the good girl  
Either way it go, either way it go So you wanna fall for the bad guy?  
So you wanna fall and get mad high?  
Confess your love for me, testify  
Anytime I'm with you, gotta testify  
Anything we go through is a test of times  
Can you be the one who love me all the time?  
We not doing good, you can see the signs  
Can you do the crime like it's Bonnie and Clyde?  
I'm giving you my testimony line for line  
I'm giving you the best of me, it's wrong or right  
Somebody tells the kids they need to calm it down  
I wanna hear your heart pump pound for pound  
Show me everything I need to see on my blind side  
Show me you gon' be there for the love of a real boy  
I just wanna be there for my dogs, they need me  
I just wanna be there for the game, that's easy  
Crumble up some herb, we ain't gettin' no zz's  
Call myself superb, gotta give 'em a repeat  
Turbo, 60 seconds in a Porsche on one way  
My amigo down in Texas, we gon' get us some grande  
Cherish every minute, every second we ride, baby  
I wanna be confident when I say you my lady  
I wanna be arrogant when I say you my lady  
I know I embarrass you, I simply violate it  
So you wanna fall for the bad guy?  
So you wanna fall and get mad high?  
Confess your love for me, testify  
Anytime I'm with you, gotta testify  
Anything we go through is a test of times  
Can you be the one, love me all the time?  
We not doing good, you can see the signs  
Can you do the crime like it's Bonnie and Clyde? A lil' turbulence got you mad curious  
I could've been, but I made a jugg again  
Parking lot dealership, I'm in to win  
We can't fake the flaws, we can't do pretend  
Can you keep it solid and don't ever bend?  
We gon' equal losses, we gon' equal losses  
Hold me down, down, down like a real shotta

We can verse back and forth like we real partners  
Spiritually, we bonded through the turmoil  
I try my best to treasure and give a little more  
I know you need my time, 'cause there's water comin'  
I know you seen the wave and you start runnin'  
Don't you be afraid, I'ma guard you with my life  
You listen to these blondes, they gon' tell you ain't right  
Listen to your heart and we gon' ride for life  
Shawty on the squad, she gon' ride for life So you wanna fall for the bad guy?  
So you wanna fall and get mad high?  
Confess your love for me, testify  
Anytime I'm with you, gotta testify  
Anything we go through is a test of times  
Can you be the one who love me all the time?  
We not doing good, you can see the sings  
Can you do the crime like it's Bonnie and Clyde? Confess your love for me, testify  
Confess your love for me, testify
