

Be My Baby

We Are Scientists

The night we met I knew I,
 Needed you so,
And if i had the chance I'd
 Never let you go,
So won't you say you love me,
I'll make you so proud of me,
We'll make them turn their heads
 Every place we go,
So won't you please:
 Be my, be my baby
 Be my baby
I want it all to save me my time
 Be my, be my baby
Be my baby I'll make you happy baby,
 Just wait and see,
For every kiss you give me,
 I'll give you three,
Oh since the day I saw you
I have been waiting for you
You know I will adore youu,
 For eternity
So won't you please:
 Be my, be my baby
 Be my baby
I want it all to save me my time
 Be my, be my baby
Be my baby Noooooo So won't you please:
 Be my, be my baby
 Be my baby
I want it all to save me my time
 Be my, be my baby
Be my baby Noooooo Be my, be my baby
 Be my little baby
I want it all to save me my time
 Be my, be my baby
Be my baby Noooooo
