

Besides Yourself

Ocean Colour Scene

Before I let you all go
Before I pull you from this show
Before I wave to you
I'd like to say to you
I wish you never to be alone Besides yourself what can you say
Millions apart and miles away
Besides yourself what do you need
Some feel no pain while others bleed So if you're going to save my words
Make sure it's this time you deserve
Before I walk away, I know your every day
Will play before you on its own Besides yourself what can you say
Millions apart and miles away
Besides yourself what do you need
Some feel no pain while others bleed And I'm not saying
I'm not saying any wrong by you
And I'm not saying
I'm not talking my time for you Besides yourself what can you say
Millions apart and miles away
Besides yourself what do you need
Some feel no pain while others bleed
