# Don't Know How to Stop

## Halestorm

Head lights, red lights, got it in my sights
Nothins in my way
No sound, hush now, push the pedal down
Got no time to waste
Its a long way home
You just crossed a borderline
When I say, Go!
You know you better hold on tight
I dont know how to stop, I give it all Ive got
Its like my brakes are shot
I gotta have too much, I dont know how to stop
Gets crazy but so what
You know its what you want so give it up
And dont be scared of
How good it feels
One speed, full speed
That is all I need
They can eat my dust
Hell yeah, rock on
Will you come along?
Do I have your trust?
Its a long way down
If youre getting this high
When I say, Now!
You had better hold on tight
Now!
I dont know how to stop, I give it all Ive got
Its like my brakes are shot
I gotta have too much, I dont know how to stop
Gets crazy but so what
You know its what you want so give it up
And dont be scared of
How good it feels
Tell me how good it feels
You know you dont want me to (I dont know how to stop)
And now that Im here with you (I dont know how to stop)
Heres what were gonna do (I dont know how to stop)
You know you dont want me to, yeah!
(I dont know how to stop)

How good it feels, tell me how good it feels, dont be scared, scared, scared
Scared of how good it feels
I dont know how to stop, I give it all Ive got
Its like my brakes are shot
I gotta have too much, I dont know how to stop
Gets crazy but so what
You know its what you want so give it up
And dont be scared of
How good it feels
I dont know how to stop
How good it feels
I dont know how to stop (x3)
