

# Don't Know How to Stop

## Halestorm

Head lights, red lights, got it in my sights  
Nothins in my way  
No sound, hush now, push the pedal down  
Got no time to waste  
Its a long way home  
You just crossed a borderline  
When I say, Go!  
You know you better hold on tight  
I dont know how to stop, I give it all Ive got  
Its like my brakes are shot  
I gotta have too much, I dont know how to stop  
Gets crazy but so what  
You know its what you want so give it up  
And dont be scared of  
How good it feels  
One speed, full speed  
That is all I need  
They can eat my dust  
Hell yeah, rock on  
Will you come along?  
Do I have your trust?  
Its a long way down  
If youre getting this high  
When I say, Now!  
You had better hold on tight  
Now!  
I dont know how to stop, I give it all Ive got  
Its like my brakes are shot  
I gotta have too much, I dont know how to stop  
Gets crazy but so what  
You know its what you want so give it up  
And dont be scared of  
How good it feels  
Tell me how good it feels  
You know you dont want me to (I dont know how to stop)  
And now that Im here with you (I dont know how to stop)  
Heres what were gonna do (I dont know how to stop)  
You know you dont want me to, yeah!  
(I dont know how to stop)

How good it feels, tell me how good it feels, dont be scared, scared, scared  
Scared of how good it feels  
I dont know how to stop, I give it all I've got  
Its like my brakes are shot  
I gotta have too much, I dont know how to stop  
Gets crazy but so what  
You know its what you want so give it up  
And dont be scared of  
How good it feels  
I dont know how to stop  
How good it feels  
I dont know how to stop (x3)
