Volkswagon

Griffin House

We'll get there, I don't know which way
But I feel you coming out, just not today
And I can't see that far through the mist and through the haze
But I know that you'll be back someday
I know that you'll be back some dayI need love, I need love in the middle of the day
When the world just keeps stopping
And your heart just keeps slippin' awayI need love in the middle of the day
When the world just keeps stopping
And your heart just keeps slippin' awayWe'll wake up on the other side of love
We'll wake up on the other sideWheels, they just spin so viscously and
I don't know anything about the way I am supposed to feel
But I just roam around the marketplace for you
And in the crowds anything we can doAnd your brown eyes, they'll just color up with greed
Anything you want anything you see, babe
We'll wake up on the other side of loveI need love in the middle of the day
When the world just keeps stopping
And your heart just keeps slippin' awayI need love in the middle of the day
When the world just keeps stopping
And your heart just keeps slippin' away
We'll wake up on the other side of loveI am in a kind of crazy mood tonight
And I was wondering if it would be alright
I'll come over, maybe about a quarter to eleven
We'll drive a Volkswagon Beetle to the gates of Heaven
And wake up on the other side of loveI need love in the middle of the day
When the world just keeps stopping
And your heart just keeps slippin' awayI need love in the middle of the day
When the world just keeps stopping
And your heart just keeps slippin' away
We'll wake up on the other side of loveJust an ordinary day when the sun stopped it's sleep eye
I saw you there and you were standing in the street and
You weren't tall, I think you came up to my knee
But you just smiled real big and said what do you need?
And I said wellI need love, I need love in the middle of the day
When the world just keeps stopping
And your heart just keeps slippin' awayI need love in the middle of the day
When the world just keeps stopping
And your heart just keeps slippin' awayWake up on the other side of love
We'll wake up on the other side
Wake up on the other side of love

Wake up on the other side
