Whoever

October Drift

Did I miss the start?
Have we even started?
Did I miss the joke?
Is anybody laughing?
Is only fact?
Does it even figure?
Can you imagine that..
There's nothing out there bigger?

Whoever really knows
Whoever really knows
Whoever really knows

Are we a grain of sand?
In an endless desert?
There's this thing called time
Only moving forward
If you change your mind
Could it change your past?
Could it change the time?
Could it change the past?

Whoever really knows
Whoever really knows
Whoever really knows

Is there a different place
Where the same things happen?
The same old game
Does any of it matter?
By these roof and floor
By the walls and door
Are there any less?
Are there any more?

...

Whoever really knows
Whoever really knows

Whoever really knows
