Hopeless

KT Tunstall

Hopeless

Everybody says its just another decay of the soul
But I know I'm a hopeless follower of anything
To take me away from this hole in the groundI found it hopeless clinging to a feeling

Like a fish on a line

It's sublime to find it lately hopeless No more saying there is no more timeI've was trying far too hard

To be what I thought I should be

I was playing wild cards

And seeing things that weren't in front of me

Like a little tiger play fighting

I was hurting myself again and againBecause I'm hopeless

Everybody says its just another decay of the soul

But I know I'm a hopeless follower of anything

To take me away from this hole in the groundI found it hopeless clinging to a feeling

Like a fish on a line

It's sublime to find it lately hopeless

No more saying there is no more time

There is no more timeWell, I'm just discovering I'm living in a different body

Got a little insight into everything thats happening to me

Like a little spider I'm climbing the insurmountable

But I never hold myself accountable, noBecause I'm hopeless, everybody says I'm hopeless

But I got a bit of hopelessness

Oh, and you can never bring me down

Even though I've got some solid ground

Oh, because I love it so and I think you should knowThat I'm hopeless

Everybody says its just another decay of the soul

But I know I'm a hopeless follower of anything

To take me away from this hole in the groundI found it hopeless clinging to a feeling

Like a fish on a line

It's sublime to find it lately hopeless, hopeless, hopeless

No more saying there is no more time
