

# Night Terrors

Joe Evans

In time, I'll get this out of  
Get this out of, out of my mind  
Where am I? I can't see  
I fear for my life, fear of this fright  
They haunt me and they taunt me  
Try to relax, let it happen  
My hopes turn to crystal matter  
Watch them shimmer as they shatter  
Night terrors in my mind, thoughts I cannot hide  
Dreams that play on my cold fears  
Night terrors in my head, am I really dead?  
I can't tell, it feels so real  
Remember what you once said  
Every passing fragile moment  
Is another chance to turn it around  
I want to try to work it out  
Night terrors in my mind, thoughts I cannot hide  
Dreams that play on my cold fears  
Night terrors in my head, am I really dead?  
I can't tell, it feels so real to me  
Get out of my mind, get out of my head  
I wish you were dead, I can't take it  
Get out of my mind, get out of my life  
I'll curse you tonight, I just can't take it anymore  
Night terrors in my mind, thoughts I cannot hide  
Dreams that play on my cold fears  
Night terrors in my head, am I really dead?  
I can't tell, it feels so real  
Night terrors in my mind, thoughts I cannot hide  
Dreams that play on my cold fears  
Night terrors in my head, am I really dead?  
I can't tell, it feels so real to me
