Odyssey

M-Seven

Take one to the mountain
Take one to the sea
Take one to the belly of the beast
And then you'll take one with meShut it, shut it onFreezing in the fires
When I utter howl your name
Once you return from the belly of the beast
You're never quite the sameShut it, shut it on
Shut it, shut it onFire on the mountain
And it rages inside of your soul
The fire inside the belly of the beast
Well it thunderizes your soulShut it, shut it on
