## M-Seven

Take one to the mountain  
Take one to the sea  
Take one to the belly of the beast  
And then you'll take one with meShut it, shut it onFreezing in the fires  
When I utter howl your name  
Once you return from the belly of the beast  
You're never quite the sameShut it, shut it on  
Shut it, shut it onFire on the mountain  
And it rages inside of your soul  
The fire inside the belly of the beast  
Well it thunderizes your soulShut it, shut it on
