

# Step Inside

## numbskulls

Step inside and steal some time  
Hide and seek is on your mind  
Think you'll find your destiny  
Shallow grave is all you'll see  
There's raindrops around  
All darkness, no sound  
Your lips swell and fine I'll let you in my mind  
A kiss for the night  
The black widow's now inside  
I now know your dreams ain't what they seem  
But I'm watchin' when you close your eyes, cos I can see your lies  
Did a lady try to sleep tonight, the devils got your eyes  
Step inside and steal some time (steal some time)  
Hide and seek is on your mind  
Think you'll find your destiny (destiny)  
Shallow grave is all you'll see  
Step inside and steal some time (steal some time)  
Hide and seek is on your mind  
Think you'll find your destiny (destiny)  
Shallow grave is all you'll see  
There's no phone talk today  
Maybe you're out to play  
Hungry for the next to play your game  
But I'm watchin' when you close your eyes, cos I can see your lies  
Did a lady try to sleep tonight, the devils got your eyes  
Step inside and steal some time (steal some time)  
Hide and seek is on your mind  
Think you'll find your destiny (destiny)  
Shallow grave is all you'll see  
Step inside and steal some time  
Hide and seek is on your mind (hide and seek is on your mind)  
Think you'll find your destiny  
Shallow grave is all you'll see  
(One day you'll find)  
(I'll come for your mind)  
But I'm watchin' when you close your eyes, cos I can see your lies  
Did a lady try to sleep tonight, the devils got your eyes  
Step inside and steal some time (steal some time)

Hide and seek is on your mind  
Think you'll find your destiny (destiny)  
Shallow grave is all you'll see  
Step inside and steal some time (steal some time)  
Hide and seek is on your mind  
Think you'll find your destiny (destiny)  
Shallow grave is all you'll see  
Step inside and steal some time (steal some time)  
Hide and seek is on your mind (hide and seek is on your mind)  
Think you'll find your destiny (destiny)  
Shallow grave is all you'll see  
Step inside and steal some time (steal some time)  
Hide and seek is on your mind (hide and seek is on your mind)  
Think you'll find your destiny (destiny)  
Shallow grave is all you'll see
