

# Sojourn

## Tears of Mars

Everyone's got a plan, something to help  
To help them understand the pain  
It's not like us to say we've given up  
It's time to run away

And we never feel safe alone  
Need a spiritual shotgun to cover our souls  
And to keep out the dark  
We're a light without batteries, a match with no spark  
But we're not gonna die  
No we're not gonna die tonight

I wanna know the truth  
I can't go on feeling like I do can you  
If there's a God I pray  
He shines a light on all my cloudy days

And we never feel safe alone  
Need a spiritual shotgun to cover our souls  
And to keep out the dark  
We're a light without batteries, a match with no spark  
But we're not gonna die  
No we're not gonna die tonight
