

# Anything for My Baby

## Kiss

Anything for my baby  
I would steal, anything for my baby  
I'd wheel and deal, anything for my baby, oh I'm in love and it feels so good  
'Cause I need her, don't mistreat her  
And I tell her so When I saw her and she looked my way  
I was lonely, she's my only  
And I've gotta say that I would steal anything for my baby  
I'd wheel and deal anything for my baby  
Crawl or kneel, anything for my baby In the mornin' when I raise my head  
She's beside me, she can hide me  
When I'm feelin' low If I'm thinkin' everything's all wrong  
My girl shakes me, she awakes me  
Then I really know that I would steal, anything for my baby  
I'd wheel and deal, anything for my baby  
Crawl or kneel, anything for my baby Don't you know that  
I would steal, anything for my baby  
I would wheel and deal, anything for my baby  
I would crawl or kneel, anything for my baby, I'd do anything I would give, anything for my baby  
I would die or live, anything for my baby  
I would t-t-t-take or give, anything for my baby Yes, I would take anything for my baby  
I would build or break anything for my baby  
I would rob or take anything for my baby  
I would do anything for my baby  
I would steal anything for my baby
