

# Cry Baby

## Lost Dogs

[Chorus]

Go ahead and cry baby  
Cry baby all night long  
Just like I cried baby  
On the pillow that you used to lay on

The sun is out and my  
Sorrows finally drowned  
So go on and turn it up  
"Cause it's my favorite song  
I sucked it up  
And washed your memory down  
I've finally let you go  
And now you comin' back around

One minute sooner and my heart  
Was good as gold  
But time's a bitch and now it's  
Turned my heart to stone, so

[Chorus]

You made our bed  
And now I gladly lay in it  
"Cause there's way more room  
And I use every single bit  
It's true it's sad  
"Cause you and I we were the shit  
"Cause our love was real  
And all you got now's counterfeit

But it's cool I'm feelin' better all the time  
As long as I know that you sittin' home cryin' , so

[Chorus]

No wonder you cry baby  
Cry baby all night long  
Just like I cried baby

On the pillow that you used to lay on

One minute sooner and my heart  
Was good as gold  
But time's a bitch and now it's  
Turned my heart to stone, so

[Chorus]

Need a little something to make me feel better  
Need a little something to make me feel better
