This Place

Sunset Black

Lately I've been thinking
People like you and I
Should never ever be
Could never ever be
Amd lately it's been seeming
That we aren't one
Cause we're two ends of time
Two ends of timeShould we say goodbye
Should we leave this place
I wanted much more than this
I needed much more than the last time
Maybe this time is the last time for us
This time maybe next time
Is the last time for nowQuit cutting me down
Stop draining my self esteem
For what it's worth please
Could you do that for me
Cause you and I know
If we stay here alone
We're both going to bleed
Away from you
Away from meShould we say goodbye
Should we leave this place
I wanted much more than this
I needed much more than the last time
Maybe this time is the last time for us
This time maybe next time
Is the last time for nowI wanted much more than this
What you say to me
What you sayIt's what you sayLast time maybe this time
Is the last time for us
And this time maybe next time
Is the last time for us nowThis is the last
This is the last time
