

Smile

Los Lonely Boys

The hours, days that Ive seen go by
Within a still forlorn and weary place
And Ive lived on this side of love for too long
And now youre here
Youre right on time
Giving truth to love
With your presence
Emitting your light
Crystal clearly on your face
I can see
I see every shade of love
In those eyes
And I see miles of happiness it shows
Baby in your smile
In your smile
Oh I see the love
In your smile
Oh I see every shade of love
In those eyes
And I see miles of happiness it shows
Baby in your smile
In your smile
Oh I see the love
In your smile
Oh I see the love
In your smile
