

Next to Me

The von Trapps

Now that the winter is gone
And the spring has moved on
We are left in summertime
My dear, you know I have one fear
It's that I will not change
That I will stay the same
But when you're next to me I feel free as I'll ever be
And when you smile at me
I can hardly believe how I feel Take my hand and don't let go
And we'll run far from home
And we'll twine our paths
And we'll never look back
We are stronger now
Than all that can keep us down
With your push and your pull
I won't fear my own soul ooh..... ooh..
aaahh.....aah.. Though we may walk weary roads,
Make it swept along in the flood,
There is one thing I know
That when you're next to me,
I feel free as I'll ever be
And when you smile at me,
I can hardly believe how I feel
