In Terms Of Love

Shedaisy

Now and then I confess you cross my mind
Now and then I guess I have a little too much time
I've changed my way of thinking
I've tried hard to separate what came too soon
From what came too late
I don't think about me in terms of you
I don't think about you in terms of us
I don't think about us in terms of love
I don't think about then in terms of now
I found a way to start again somehow
I don't think about what we thought it was
Oh, in terms of love
Oh, in terms of love
I'm countin' on heaven to understand
I didn't mean to go and mess up all the plans
Sometimes you know where you should go
Before you know the way
I'll bother with tomorrow
Once I made it through today
I don't think about me in terms of you
I don't think about you in terms of us
I don't think about us in terms of love
I don't think about then in terms of now

I found a way to start again somehow
I don't think about what we thought it was
Oh, in terms of love
Mmmm, hummm, yeah
I don't think about black in terms of grey
Or revelations in the light of day
I don't think about cold in terms of ice
Or second chances happenin' twice
I don't think about me in terms of you
I don't think about you in terms of us
I don't think about us in terms of love
I don't think about then in terms of now
I found a way to start again somehow
I don't think about what we thought it was
Oh, in terms of love

(I don't think about me in terms of you)
(I don't think about you in terms of us)
In terms of love
(I don't think about then in terms of now)
(I found a way to start again somehow)
Oh, yeah, yeah, yeah
I don't think about us in terms of love
