

# Just a Shadow

## Pacifier

Livin' it up inside a cloud of isolation  
With all the people tryin' to be somebody else  
Cut apart an extra generation  
Cut apart forget yourself Stand up, stand up, stand up  
Fuck yeah  
Light up, light up, light up  
Fuck yeah  
Sittin' in line, but you're all in your mind  
You're too cool to touch There's somethin' inside you  
Where nobody goes and  
There's somethin' about you  
That I used to know  
And if the sun is still shinin'  
You'd never tell, you're just a shadow Tied up in knots, lyin' tangled from the ceiling  
With all the people wishin' I was somewhere else  
Lookin' good, don't know what I'm feelin'  
Lookin' good, it's time to sell When they get up, get up  
Fuck yeah  
When they light up, light up  
Fuck yeah  
Settin' the time, tryin' to get you alive  
I can't seem to touch There's somethin' inside you  
Where nobody goes and  
There's somethin' about you  
That I used to know  
And if your sun is still shinin'  
You better tell, you're just a shadow  
Of somebody else, you're just a shadow Let it go  
Get up, get up, get up  
Let it go  
Stand up, stand up, stand up There's somethin' inside you  
Where nobody goes and  
There's somethin' about you  
That I used to know  
And if your sun is still shinin'  
You better tell, you're just a shadow  
Of somebody else, you're just a shadow  
You're just a shadow  
Of somebody else, you're just a shadow
