

Wasteland

Billy Idol

Out into the wasteland
Out into the wasteland
No religion
No religion, no religion at all
No religion
No religion, no religion at all
No religion, no religion at all
No religion
No religion, no religion at all
No religion
No religion at all
No religion
Imaginary man amongst the heathen
Can't you see a modern primitive
I came back, I'm gonna find
I'm gonna give religion
When there was, no religion at all
I'm outta the wasteland
I'm into this head man
I'm outta the wasteland
No religion at all
I'm outta the wasteland
I'm into this head man
I'm outta the wasteland
No religion, no religion at all
There's a man in need of resurrection
No religion
Can't you see a modern primitive
No religion
But I'm a man, I need my love and freedom
No religion
When there was no freedom at all
I'm outta the wasteland
I'm into this head man
I'm outta the wasteland
No religion at all
I'm outta the wasteland
I'm into this head man
I'm outta the wasteland

No religion, no religion at all
No religion
No religion at all

No religion
No religion at all
In VR land, the future of fun
Tell me what to do
In VR law, computer crime
So sublime

A fantasy scene in my machine
Give me secret of life
Let me know yeah, what I am
And you know that I could get
Outta the wasteland

I'm into this head man
I'm outta the wasteland
No religion at all
I'm outta the wasteland
I'm into this head man
I'm outta the wasteland

No religion, no religion at all
I'm outta the wasteland
So far from the the dead land
I'm outta the wasteland

No religion, no religion yeah
I'm outta the wasteland
So far from the the dead land
I'm outta the wasteland

No religion, no religion at all
No religion, no religion at all
No religion

No religion, no religion at all
No religion

No religion, no religion at all
No religion

No religion, no religion at all
No religion at all
No religion at all

No religion
No religion, no religion at all
No religion

No religion, no religion at all
I'm outta the wasteland
