# Control

## Delta Goodrem

I woke up in our bed but you weren?t there
Some dreams start out as dreams and turn into nightmares
Feel it screaming your name
But it's always the same
And I can't shut my mouth
And hope you'll love me
I, I've been at this too long
But I know that it's wrong to be here
Tonight, I've decided you know
I'm taking back control
Watch as you leave
Break to your soul
Baby, I'm taking back control
Control
You had every chance to make it right
You know I loved you more than anyone else in life
I'm not yours anymore
I'm picking my tears up off the floor
'Cause baby you had my heart and I'm taking it back
I, I've been at this too long

But I know that it's wrong to be here
Tonight, I've decided you know
I'm taking back control
Watch as you leave
Break to your soul
Baby, I'm taking back control
Control
Control
So may I remind you who I was before you
I, I've been at this too long
But I know that it's wrong to be here
Tonight, I'm just letting you know
I'm taking back, I'm taking it back, taking it back, I'm taking it back
Taking it back, taking it back, I'm taking it back
Tonight, I'm just letting you know
I'm taking back control
Watch as you leave
Break it to your soul

Baby, I'm taking back control
Control
Baby, I'm taking back control
Control
