# Blind Justice

## Mind's Eye

So they say they'll set me free
If I plead guilty and let it be
But I'm not the one who did their crimes
So why should I keep taking their jives?I'm done playing all their games
And being titled low life names
When I'm innocent and concerned
Of who I am and what I've learned
I'm not the one who did their crimesThere's no justice, there's just us
Blind justice screwed all of us
There's no justice, there's just us
We need justice for all of us
