Single Girl

Thomas Rhett

Single girl
I know you're out there on a run
Out on a town baby havin' fun
But don't you want someone
Single girl
How long you wanna be all alone
Don't it get lonely baby on your own
Like a rolling stone, well II think that I could be the guy
Just what you're missin' baby in your life
By your side
When the nights get cold
And I could be there for you to hold
Oh baby ain't it gettin' old?
Livin' in this lonely world
When you don't have to be single girlSingle girl
Aw you so pretty baby don't you know
You can have anybody that you want
So what you waitin' on
Tell me girl
That smile on your face is it for me
'Cause somethin' tells me that you're startin' to see
How it could be
When II think that I could be the guy
Just what you're missin' baby in your life
By your side
When the nights get cold
And I could be there for you to hold
Oh baby ain't it gettin' old?
Livin' in this lonely world
When you don't have to be single girlOh single girl
Don't wanna rush you girl
But I prmomise you can trust me girl
When I tell you, when I tell you
That II think that I could be the guy
Just what you're missin' baby in your life
By your side
When the nights get cold
And I could be there for you to hold
Oh baby ain't it gettin' old?

Livin' in this lonely world
When you don't have to be single girlOh no you don't have to be single girl
