Testify (feat. Dr Jazz)

Una Rams

[Verse 1: Una Rams]

Came into my life you made me so glad
I apologize if I make you mad
Cherish moments with you watch the time pass
Like a time-lapse, that was so fast
Let's just take it slow and hope that we'll last
This feels like a movie with the right cast
That's romance, our romance
And we don't even try it's subconscious
I doubt they'd understand us
And I know some people jealous
They want what we have, girl
They want what we have
We don't even mind them we got no stress
And we always kick yeah we relax
You're the realest
Your love is my addiction always relapse
I might need rehab
I might need rehab, yeah
I might need rehab

[Hook: Dr Jazz]

Every night as I lay on my bed
With thoughts of you, running through my head
When I fall asleep, in my dreams
Your pretty face, that's all I see
(Yai)

You gon' make me testify
You gon' make me testify, baby
I just love that you are mine
I just love that you are mine, baby

[Verse 2: Una Rams]

Sitting here hoping that I'll never lose you
I know in the future we might have some issues

But we'll talk it through
I hope we'll work it out
I hope we'll figure out
How to get through the motions
Stick to what's important
Keep these emotions
Love deep as the oceans
Let's drown in it
(Oh Lord)
Treat you like a queen
You got the crown ain't it
I'd stop time for you Cinderella
So midnight would never strike and we could dance forever
Nothing else really matters
Long as we've got each other
Everything's much better
As Long as we're together, lover

[Hook: Dr Jazz]

Every night as I lay on my bed
With thoughts of you, running through my head
When I fall asleep, in my dreams
Your pretty face, that's all I see
(Yai)

You gon' make me testify
You gon' make me testify, baby
I just love that you are mine
I just love that you are mine, baby
