

# Best of Me

Greg Simpson

I am a ship out on the ocean  
My sail rocking in the wind  
I cast my net into the water  
Let the captain bring ?em in

I am the feet on the mountain  
The trail guide calling my name  
I feel a rush of high adventure  
Whippin? my way

I need a guide on the mountain  
I need a captain on the sea  
Giving me direction  
Getting the best of me

I am the wheels in motion  
A revved-up racing machine  
I use a high-performance oil  
Keep my motor clean

I climb the highest mountain  
When I?ve got a driver in the seat  
Give a little direction  
Getting the best of me

You may not understand a word I?m saying  
And I don?t expect you to  
I only hope what I?m conveying  
I?m somehow getting through

I need a guide on the mountain  
I need a captain on the sea  
Giving me direction  
Getting the best of me
