Strong Woman

Lalah Hathaway

She takes the kids to school
Then she turn around and put up with you
Cookin, wash clothes
All the things she do only heaven knowsBut you see and you know, but some how you still neglect it
Before its too late, boy I think you better correct it
Because you never know what ya got till its gone, till its gone
And you aint never gonna stop, till you alone all aloneYou about to lose this strong woman, strong woman, strong woman, strong woman
Strong woman, strong woman, strong woman, strong womanYour dedicated but your playing, I suggest that you, you finna lose play to lose
Because you about to lose this strong woman, strong woman, strong woman, strong womanAlways on time she stay fly
Fellas almost crash every time they drive by
You see never know that she had a baby 5 months ago
But you see and you know, but some how you still neglect it
Before its too late, boy I think you better correct it
Because you never know what ya got till its gone, till its gone
And you aint never gonna stop, till you alone all aloneYou about to lose this strong woman, strong woman, strong woman, strong woman
Strong woman, strong woman, strong woman, strong womanYour dedicated but your playing, I suggest that you, you finna lose play to lose
Because you about to lose this strong woman, strong woman, strong woman, strong womanStrong woman, strong woman, strong woman, strong woman
Strong woman, strong woman, strong woman, strong womanYour dedicated but your playing, I suggest that you, you finna lose play to lose
Because you about to lose this strong woman, strong woman, strong woman, strong woman
