

No Way Out (feat. Kat Nestel)

Vicetone

You, walk alone,
Every night in the dark,
Looking for every trace to your heart
Wanna find where you were
Who you are tonight
I'm stranded in
In a world full of dreams
Out of time, out of luck, out of reach,
See the light, shining in,
From your eyes tonight The storm is coming now
I'm your place to hide
I think you're drowning now
Running for your life
We can slip away
Into goodtime
Follow me follow me
When there is no way out White diamonds
From the love to your soul
I'm the one
You can be
Calling home
Open door,
Feel the rush,
When you fade away
Fly, fly away,
Ricochet off the ground
Find a place,
Where you're safe,
In the cloud
When you're lost,
I'm the light, which will guide
The way The storm is coming now
I'm your place to hide
I think you're drowning now
Running for your life
We can slip away
Into goodtime
Follow me follow me
When there is no way out Follow me, follow me,

When there is no way outThe storm is coming now
I'm your place to hide
I think you're drowning now
Running for your life
We can slip away
Into goodtime
Follow me follow me
When there is no way outFollow me, follow me,
When there is no way out
