

Year of Summer

Niels Geusebroek

The clouds have gone away
To start a brighter day
We have waited for too long
It's time to let it out
You know what it's about
We've waited all to feel the sun

The hotter it gets, the faster we seem to fall in love
The deeper we fall, the more we lose control

Set your mind free, it's the Year of Summer
Keep your heart strong cause it's up here
Set your mind free, it's the Year of Summer
And here the sun rise still

The hotter it gets, the faster we seem to fall in love
The deeper we fall, the more we lose control

Set your mind free, it's the Year of Summer
Keep your heart strong cause it's up here
Set your mind free, it's the Year of Summer
And here the sun rise still

The clouds have gone away
To start a brighter day
We have waited for too long
